

## GLASSBEADS STERILIZERS

Automatic thermostat, safety thermic fuse, double thermic fibre glass insulation, careful electric insulation, feeding cable with safety plug, insulating material externally protected by stainless steel plate, armoured resistance, air circulation on 5 sides, switch and warning lights with safety marks.

One removable nickel copper cup of easy replacement with holding edge to avoid leakages of quartz balls. Three broght gauges (network, wait, work) have to control the conditions of the equipment.

**item: 712/00 - MINISTERIL**

**item: 712/20** - Package of glassbeads for Ministeril

**item: 714/00 - MAXY STERIL**

**item: 714/20** - Package of glassbeads for Maxysteril

€ 0068

Technical features:	MINISTERIL	MAXYSTERIL
Feeding:	220 V - 50 Hz	220 V - 50 Hz
Max absorbed power:	60 Watt	150 Watt
Exercise temperature:	235 °C	235 °C
Dimensions:	11x10x15 cm	13x20x15 cm
Weight:	2,25 Kg	2,5 Kg

## THERMOSEALER

**item: 717/00 - NEWSEAL**

The thermosealer systems enables surgical instruments to be wrapped before being put in the autoclave so as to maintain sterility after sterilization has been completed. The new sealing system uses a new heating technology which produces a 12 mm seal with no risk of accidentally burning the paper.

**price: € 650,00**

### ROLLS FOR STERILIZATION:

**item: 717/01** - 75 mm x 200 mt each.

**item: 717/02** - 100 mm x 200 mt each.

**item: 717/03** - 200 mm x 200 mt each.

Technical features:	
Sealing bandwidth:	12 mm
Maximum sealing width:	300 mm
Dimensions:	43,5x31x33 cm
Weight:	8 Kg

## GERMICIDAL LAMP

### item: 754/00 - GERMILAMP

Potent germicidal action is amplified by reflecting surfaces. A microswitch placed near the protective screen, prevents accidental direct exposures. The lamps in use emit over 85% of their energy with wave-length 253,7 nm. in ultraviolet band, with a radiation that kills bacteria and other micro-organisms.

**price: € 250,00**

### item: 754/20 - Germicidal spare lamp 15 Watt

#### Technical features:

Absorbed power:	15 Watt
Feeding:	230 V - Hz 50/60
Dimensions:	48x22,5x21 cm
Weight:	6 Kg

## APEX LOCATOR

58

€0197

### item: 545/00 - WOODPEX I

The Woodpex I Apex Locator from Carlo De Giorgi features a new generation full colour visual display for improved tracking of the files. It also has the latest multi frequency technology incorporated into this 5th generation apex locator and an extended apical zoom function, which activates when the file reaches the apical area, assisting the dentist to locate the apex in most types of root canal conditions. The Woodpex I apex locator has a small footprint and operates on a rechargeable battery, so it can be moved between dental surgeries with ease.

NEW

## AMALGAMATOR

### item: 721/00 - DENTAL MIX 2000

Mechanical-Electronic amalgamator, programmable with pre-selected working times for each type of amalgams: for capsules and powders.

#### Technical features:

Vibration frequency:	4000 pulses/minute
Power:	70 Watt
Feeding:	220 V - 50 Hz
Mixing times:	variable
Vibration:	moving at "8"
Dimensions:	23x21x11,5 cm
Weight:	3,7 Kg
